To
The Principal,
JSPM's Imperial College of Engineering and Research, Wagholi, Pune

Dear Sir,

I am writing this letter to inform you that with a unanimous discussion with our Board Members, your proposal for setting Academic Alliance with our organisation has been accepted. We were impressed with your comprehensive understanding and confidence towards making Academic Alliance with us.

With reference to your proposal letter for Academic Alliance for setting Skill Development Lab and organizing Industrial Visits and Sponsored Project followed by discussion with you and your faculty members on 10/06/2017 at our organisation, we are ready to provide you all needed help for setting Skill Development Lab for Mechanical Engineering Department at your Institute.

For arranging industry visit, you need to get prior the permission with all details and follow rules and regulations laid down by the organisation. We also look forward to offer sponsored projects to your students as per the availability of project work in our organisation.

For any help and clarification needed, please feel free to talk with us.

Thanks

Managing Director

Bhairavnath Sugar Works Ltd.,

EVENT REPORT

1	Name of the Event	"Industrial Visit at Bhairavnath Sugar Industry PVT. LTD."
2	Day & Date of the Event	Monday to Wednesday, 18 th March to 20 th March 2019
3	Time of the Event	6:30 am to 8:00 pm
4	Venue of the Event	Bhairavnath Sugar Industry PVT. LTD. At post Alegaon, Dist Solapur

5 Description

(a) Introduction, Theme & Significance

a) Introduction

The sugar industry subsumes the production, processing and marketing of sugars (mostly saccharose and fructose). Globally, most sugar is extracted from sugar cane (~80 % predominantly in the tropics) and sugar beet (~ 20%, mostly in temperate climate like in the U.S. or Europe). Sugar is an essential basis for soft drinks/sweetened beverages, convenience foods, fast food, candy / sweets, confectionery, baking products and the respective industries. Around 160 million tonnes of sugar is produced every year. The largest producers are Brazil (22%), India (15%) and the European Union (10%). There are more than 123 sugar-producing countries, but only 30% of the produce is traded on the international market. In 2011 global sugar export trade was worth \$47bn, with \$33.5bn of sugar exports from developing countries, and \$12.2bn from developed countries.

b) Theme

A sugar cane mill is a sugar refinery that processes sugar cane to produce raw or white sugar. The term is also used to refer to the equipment that crushes the sticks of sugar cane to extract the juice. Bhairavnath Sugar Works Ltd was incorporated in the year 2000. The Company has started

its business under the Dynamic Leadership of Mr. Tanaji Jayawant Sawant and his Professional Team in 2008-09. The Bhairavnath Sugar Works Limited, the pioneers in manufacturing of sugar and allied products. In addition to sugar manufacturing, our company also has facility for co-generation and selling of power. The company has its corporate office at Pune (Maharashtra). The Company has four sugar plants.

c) Significance

To introduce such a technology to provide students an insight regarding Boilers section, Turbine and power sections, Process heating, for solving industrial problems and encourage them for finding new challenges in industries, Mechanical Engineering Department organized an Industrial visit for second year students.

(b) Conduction, Guest details, Activity

a) Conduction

Mechanical Engineering Department organized Industrial visit for second year students at Bhairavnath Sugar Industry PVT. LTD. at post Alegaon, Dist Solapur.

c) Students & Faculty response & participation

a) Students & Faculty

More than 203 Students and 14 faculty members of Second year Mechanical Engineering visited and get clear cut ideas about the subject and improve their knowledge of particular subject.

EVENT REPORT

1	Name of the Event	"Industrial Visit at Auto Cluster Development & Research Institute Pune"
2	Day & Date of the Event	Wednesday, 26 th February, 2020
3	Time of the Event	8:00 am to 5:00 pm
4	Venue of the Event	Mumbai - Pune Highway, Chinchwad, Pune.

Sr No	Objective	Expected Outcomes
1	To have interaction between the Industry and students.	To have good Industry Interaction with students.
2	To get practical exposure to students about the subject.	Students have got detailed information about process of sugar manufacturing.
3	To develop teaching methodology in department.	To have more students oriented activities in the department arranged by faculty members.

Description:

Mechanical Engineering Department organizes Industrial visit at "**Auto Cluster Development & Research Institute Pune**" for Second year students to understand the basic concepts of subjects and to overcome the gap between theory and practical.

(a) Introduction, Theme & Significance:

Introduction:

Auto Cluster Development and Research Institute. (ACDRI) is established under the Industrial Infrastructure Up gradation Scheme (IIUS) of the Department of Industrial Policy and Promotion (DIPP), Ministry of Commerce and Industry, Government of India, supported by Government of Maharashtra and Pimpri Chinchwad Municipal Corporation with initiative of Maharashtra Chamber of Commerce, Industries and Agriculture (MCCIA).

The Auto Cluster Development and Research Institute is a facility for providing support to Small & Medium Enterprises. The Auto Cluster Development and Research Institute provides an array of services for the industrial sector.

Department of Mechanical Engineering

promotional activities especially for the automotive and engineering sector

Theme:

To get perfect knowledge to the students related to the subjects which covers industrial visits, site visits, and help them to understand the concepts about the subject. As well as creating Infrastructural support to promote innovation & collective learning for the learners.

Significance:

Department of Mechanical Engineering organized Industrial Visit at "**Auto Cluster Development & Research Institute Pune**" for second year students. The main purpose behind organizing this visit was to understand observing what actual done in industry, actual practical knowledge rather than theoretical which was cover in subjects. Students spent a good time in factory, and it was a great experience.

(b)Conduction, Guest details, Activity

Conduction:

Department of Mechanical Engineering organized Industrial Visit at "**Auto Cluster Development & Research Institute Pune**" on 26th February 2020.

Guest Details:

NA

Activity:

Industrial visit organized by Mechanical Engineering Department for second year students to understand the concepts of subjects while seen an actual components and machineries.

(c)Students & Faculty response & participation:

More than 41 second year students and 04 faculty members of Mechanical Engineering Department visited at "**Auto Cluster Development & Research Institute Pune**" and get clear cut ideas about the subject and improve their knowledge of particular subject.

July 10, 2018

To,

The Principal,
JSPM Imperial College of Engineering & Research
Wagholi

Respected Sir/Madam,

Greetings from ICT Academy!

ICT Academy appreciates and values your association with us so far. As a member institution, you have been an active contributor and supported us in making valid improvements to our various initiatives.

All these 9 years, ICT Academy has been striving to provide holistic service to every stakeholder of the education ecosystem in developing the next generation talent pool in India to make them industry-ready employees, innovators, entrepreneurs and leaders.

ICT Academy is endorsed and recommended by **NITI Aayog (National Institution for Transforming India Aayog)**, the National Planning body of Government of India as one of the unique organizations for dissemination and replication, which is aligned to the Skill India Vision of the Government of India.

ICT Academy membership now swathes over 700+ Educational Institutions across the country, with participation from Engineering and Arts & Science Institutions.

ICT Academy has initiated numerous corporate partnerships with leading technology organizations like Dell EMC, Oracle, Intel, Microsoft, VMware, Autodesk, Palo Alto, Salesforce, IBM, AWS, etc. and was instrumental in providing the latest technology courses to the faculty members and the students with international certification & recognition.

Presently, the following are the most in-demand skills across the globe, as the world moves towards Digitization, Virtualization and Designing;

- Cloud Computing
- Big Data Analytics
- Network and Information Security
- Artificial Intelligence
- Machine Learning
- Design and Development

Recognizing the industry needs, ICT Academy has built various programs that shall enhance the technology skills and the employability skills of the next generation talent pool and make them employable and have entrepreneurial mindset. In this academic year, ICT Academy will have new partnership with technology companies and help the member institutions build Center of Excellence technology labs.

5. Description:

(a) Introduction,

Big data is a term for data sets that are so large or complex that traditional data processing application software is inadequate to deal with them. The term "big data" often refers simply to the use of predictive analytics, user behavior analytics, or certain other advanced data analytics methods that extract value from data, and seldom to a particular size of data set.

Theme

Big data analytics examines large amounts of data to uncover hidden patterns, correlations and other insights. With today's technology, it's possible to analyze your data and get answers from it almost immediately – an effort that's slower and less efficient with more traditional business intelligence solutions.

Significance

Big data is the demand of the industry nowadays and is the current trend in the industry.

(b) Conduction

The conduction of training course on Data Science & Big Data Analytics was done by Prof. A. A. Trikolikar & Prof. P. Kumar; both are working as an Assistant Professor in E&Tc department of Imperial College & Engineering & Research, Wagholi.

Guest details

The workshop was conducted by inhouse faculty Mr. Anand Trikolikar & Mr. P.Kumar.

(C) Students response & participation:

For this particular workshop 40 students are shortlisted. The selection of student is based on a written aptitude test followed by a personal interview. The duration of said course is 80 Hrs.

- 4 Venue of the Event B-316, Research Lab, E &TC ICOER

5. Description:

(a) Introduction, Theme & Significance:

Introduction:

Big Data and data science is one of the booming technology now a days. This workshop provides skill and technical aspects of data science so that student can perform well in international certification exam, which leads students to better placement in this field.

Theme

This workshop provides a training & certification exam oriented content delivery to train students in field of data science. Data science training also helps students to qualify another exam or interview related to the role of data scientist.

Significance

This program develops programming skill in R language. Also provides an exam preview so that student can perform well in final exam for certification. As trainer belongs to ICT academy he trained students according to exam questions and time management.

(b) Conduction & Guest details:

Department of Electronics & Telecommunication Engineering

Guest details

The conduction of workshop was initiated by P. kumar, and ICT trainer DineshKumar Gandhi.

Conduction

Program was started with introduction of trainer, followed by introduction of big data and scope in big data, continued with programming skill.

(C) Students response & participation:

Participation

Student enrolled for data science from both BE E&TC as well as BE computer participated in workshop

Student Response

Students get well benefitted with this workshop and also cleared doubts at the end. Students from computer dept. as Well as E &TC Dept attended lecture from trainer from 8:30AM to 5:30 PM

Dr. Dilip. D. Shah

Principal

Date: 8th Mar. 2017

Texas Instruments Innovation Center (A partner of Texas Instruments India University Program):

1. Introduction

India has become a promising investment destination for foreign companies looking to do business here. Our Honorable Prime Minister of India Shri Narendra Modi has launched the 'Make in India' initiative with the aim to give the Indian economy global recognition. This initiative is expected to spur development, economical growth and thereby improving the living standard of Indian Citizen.

Engineering education has to play very important role in providing huge pool of skilled and knowledgeable, and industry ready engineers. The future success of Indian industry depends on the growth of quality engineering education in India, especially since Indian industry is competing globally in areas such as software and hardware electronics, automobiles, pharmaceutical, chemicals, engineering equipment etc. In India, the brightest students opt for engineering after the 12th standard. This has resulted in a spurt of engineering colleges. However, the reality is that only a very small percentage of these students are readily employable (@25% or less as per the survey by Nasscom) and most lack industry specific skills. In order to bridge this gap between the academia and the industry and to ensure ready deployment in regular work streams, structured industry specific training is necessary.

2. Brief Introduction about JSPM'S Imperial College of Engineering & Research, Pune:

JSPM's Imperial College of Engineering & Research (ICOER) is one among the competent engineering colleges, established in 2006-07 and is situated on a picturesque heart throbbing landscape at Wagholi on Nagar -Pune Road. The institute offers Under Graduate courses in Computer Engineering, Information Technology, Electronics & Telecommunication, Mechanical Engineering & Civil Engineering and Post Graduate courses in Computer Engineering, Electronics & Telecommunication, Mechanical Engineering & Civil Engineering along with Masters in Business Administration (MBA). The core strength of this institute is highly qualified, dedicated & experienced faculty, well equipped laboratories, 48 Mbps high speed Internet Facility and state of art infrastructure.

Faculty members in this institute strive hard to impart quality technical knowledge so as to produce the technocrats of futuristic vision. The Institute has established a Research Technology Center which provides a platform to enhance the research attitude. The students who aspire to become engineers are groomed with appropriate technology expected in the industries. Technical forums, student associations and study groups are the avenues to enhance the technical & softskills. The students are oriented and counseled to the technical education through an unique concept of Guardian Faculty Member.

| 3 | Time of the Event | 9:00am to 5:00pm |
| 4 | Venue of the Event | Texas Instruments Innovation Center, Dept. of E & TC, ICOER, Wagholi |
| 5. | Description | |

(a) Introduction,

JSPM's Imperial College of Engineering & Research, Wagholi organised a 3 day National Level Student Training Program on "Embedded System Design using MSP430 " from 17.07.2017 to 19.07.2017 under MOU signed with Texas Instruments. The guests emphasized that such kind of training will increase the employability skills of the students and make them market ready.

Theme

Texas Instruments is a global semiconductor design and manufacturing company which sells it to electronic designers and manufactures globally. The Texas Instruments University Program is dedicated to supporting engineering educators, researchers and students worldwide. This will give an edge to the engineering students to make them market ready and thus enhancing the career opportunities for the students.

Significance

The innovation center covers latest lab development tools like MSP430, ALSK PRO, IOT Development tools etc. The Texas Instruments University Program is dedicated to supporting engineering educators, researchers and students worldwide.

JSPM's

Imperial College of Engineering and Research, Wagholi, Pune.
(Approved by AICTE, Delhi & Govt. of Maharashtra, affiliated to Savitribai Phule Pune University)
Gat.No.720, Pune-Nagar Road, Wagholi, Pune, 412207

(b) Conduction

The training program was inaugurated by Campus Director Dr. S.N. Patil, Principal Dr.D.D.Shah, & Dean Academics ,Prof. P.R. Badadapure. Welcome address was delivered by Dr. S.L.Lahudkar, Head of the Department.

Guest details

This workshop was conducted by Mr. Sajad Rather & Mr. Ganesh , Application Engineers from Edgate Technologies, Technology Partner ,Texas Instrument University Program.

Activity

The training exposed them to various design tools like Code Composer Studio. The lab sessions also covered interfacing modules ,sensors ,communication between devices & wireless integration. It gave a brilliant opportunity and a learning platform to the students of BE .It covered complete application building concept using MSP430 series MCU, TIVA platform .It gave hands on experience to all the participants using WiFi Booster pack,& CC3100 booster pack.IOT concept was also discussed in detail .The FDP developed design & development skills of the the participants by providing hands on lab sessions by using MSP430 launch pads,CC3100,CC3200 Modules.

(C) Students & Faculty response & participation

Around 55 students from our college and outside colleges participated in the program and benefitted from the same.

Introduction

Texas Instruments is a global semiconductor design and manufacturing company which sells it to electronic designers and manufactures globally. The Texas Instruments University Program is dedicated to supporting engineering educators, researchers and students worldwide.

Theme

Our Innovation Center has been set up under this TI University Program. We provide training to students and faculty for Texas Products. It covers complete application building concepts using MSP430 series MCU, TIVA platform & Energia platform. Due to ultra-low power consumption feature, it is widely used in portable devices. It also covers IOT concepts & application

Significance

To make the students aware of the ultra-low power microcontroller, to develop an application such as Handheld Measurement, Medical Instruments, Security, Sports and Home automation

(b) Conduction

The training program was inaugurated by Dr.S.L.Lahudkar, HOD E & TC, & he delivered the welcome address. The sessions consisted of lectures regarding the introduction of MSP430 and then explanation about the basic practicals. The hands on sessions were carried out for all the students for all the practicals. Interfacing to various sensors was also carried out.

Guest details

This workshop was conducted by Dr.S.K.Bhatia, Prof. R.K.Sarawale & Prof. H.N.Dhanwate from E & TC Department.

Activity

The training exposed them to various design tools like Code Composer Studio. The lab sessions also covered interfacing modules, sensors, communication between devices & wireless integration. It gave a brilliant opportunity and a learning platform to the students of BE. It covered complete application building concept using MSP430 series MCU, TIVA platform. It gave hands on experience to all the participants using WiFi Booster pack, & CC3100 booster pack. IOT concept was also discussed in detail. The FDP developed design & development skills of the participants by providing hands on lab sessions by using MSP430 launch pads, CC3100, CC3200 Modules.

(C) Students & Faculty response & participation

Around 55 students from our college and outside colleges participated in the program and benefitted from the same.

5. Description

Introduction

Texas Instruments is a global semiconductor design and manufacturing company which sells it to electronic designers and manufactures globally. The Texas Instruments University Program is dedicated to supporting engineering educators, researchers and students worldwide.

Theme

Our Innovation Center has been set up under this TI University Program. We provide training to students and faculty for Texas Products. It covers complete application building concepts using MSP430 series MCU, TIVA platform & Energia platform. Due to ultra-low power consumption feature, it is widely used in portable devices. It also covers IOT concepts & application

Significance

JSPM's

Imperial College of Engineering and Research, Wagholi, Pune.

UNDER SECRETARY

Department of Electronics and Telecommunication Engineering
DR.R.S.DESHPANDE
PRINCIPAL

To make the students aware of the ultra-low power microcontroller , to develop an application such as Handheld Measurement, Medical Instruments, Security, Sports and Home automation

(b) Conduction

The Course was conducted for JSCOE, Hadpsar Students to enhance their knowledge.

This course included introductory session of MSP430 architecture and features,

Introduction to Ultra low power Microcontrollers

- MSP 430 Microcontrollers
- LED with GPIO
- LED control using Switch
- Interrupt Programming
- Temperature sensor interfacing
- Configuring CC3100 Booster pack as WLAN to send E-mail
- IoT application- Real time data monitoring

Guest details ---NA

Activity

It was a value added course, students performed 10 experiments during workshop.

We also conducted online test for students evaluation.

(C) Student response & participation

Around 60 students benefitted by this course, students also glad to know new technology for and its hands on practice. Students requested to arrange such workshop for 3 days which will be focus on more IOT approach.

Memorandum of Understanding

To,

The Principal/HOD Mechanical Engg,
Imperial College of Engineering & Research,
Wagholi, Pune 412207.

Dear Sir,

Sub: MOU Sign for Training CAD/CAM/CAE/EV for Mechanical Department,

We thank you for choosing CADD Centre for training requirement. CADD centre is pleased to extend its hand to tie-up with **J.S.P.M's Imperial college of engineering & Research, Wagholi** to offer training on leading **CAD/CAE/CAM** software to the students of **Mechanical Department**.

I request you to kindly, go through below the Various Software available for Mechanical students.

Software: **CAD-** Auto CAD, CATIA, NX CAD, SolidWorks, Inventor, Creo, Electrical Vehicle.
CAE- Ansys, Hypermesh, Matlab
CAM- NX CAM, Delcam

We at **CADD Centre** value our relationship with **J.S.P.M's Imperial college of engineering & Research, Wagholi** and look forward for a long term relationship with **J.S.P.M's Imperial college of engineering & Research, Wagholi**.

MOU Duration: August-2018 to October 2028

Assuring you for the best of our services in the months to come.

With warm regards,

Aparna Gautam,
Business Manger.

EVENT REPORT

1	Name of the Event	"Hands-on Workshop on CATIA"
2	Day & Date of the Event	Thursday 30 th Jan 2019 to Wednesday 26 th Feb 2019
3	Time of the Event	2:30 pm to 4:30 pm
4	Venue of the Event	C 108 Cad lab IV, Mechanical Engineering Department.

5 Description

(a) Introduction, Theme & Significance

a) Introduction

CATIA started as an in-house development in 1977 by French aircraft manufacturer AVIONS MARCEL DASSAULT, at that time customer of the CADAM software to develop Dassault's Mirage fighter jet. It was later adopted by the aerospace, automotive, shipbuilding, and other industries. Initially named CATI (conception assistée tridimensionnelle interactive – French for interactive aided three-dimensional design), it was renamed CATIA in 1981 when Dassault created a subsidiary to develop and sell the software and signed a non-exclusive distribution agreement with IBM.

Commonly referred to as 3D Product Lifecycle Management software suite, CATIA supports multiple stages of product development (CAx), including conceptualization, design (CAD), engineering (CAE) and manufacturing (CAM). CATIA facilitates collaborative engineering across disciplines around its 3DEXPERIENCE platform, including surfacing & shape design, electrical, fluid and electronic systems design, mechanical engineering and systems engineering.

b) Theme

CATIA enables the creation of 3D parts, from 2D sketches, sheet metal, composites, molded, forged or tooling parts up to the definition of mechanical assemblies. The software provides advanced technologies for mechanical surfacing & BIW. It provides tools to complete product

Accredited with NAAC "A" Grade

definition, including functional tolerances as well as kinematics definition. CATIA provides a wide range of applications for tooling design, for both generic tooling and mold & die. In the case of Aerospace engineering an additional module named the aerospace sheet metal design offers the user combine the capabilities of generative sheet metal design and generative surface design.

c) Significance

Unigraphics and Pro-E are fine Computer Aided Design (CAD) programs. However, there are more companies - worldwide - using CATIA than all the other CAD programs combined. Therefore, there is more demand for CATIA designers than there are for designers using any other CAD program. If you want to give yourself the best opportunity for to further your career, then CATIA is the right choice.

(b) Conduction, Guest details, Activity

a) Conduction

Mechanical department conducted **"Two week Hands on Training workshop on CATIA"** for Third Year students of Mechanical Engineering Department.

b) Guest details

Mr. Rakesh

TCIL IT, Wagholi,

Pune.

d) Activity

Two week Hands on Training workshop on CATIA includes basic knowledge of CATIA software, its use, functions, applications in various industries like Automobile industry Ship building, Industrial Equipment, Aerospace etc. Two hours per day practical session conducted by Mr. Rakesh, TCIL IT, Wagholi, Pune. He shares his experience in knowledge about CATIA as well as various software's applicable for the training for students.

c) Students & Faculty response & participation

a) Students Response:

More than 14 students of Third Year Mechanical Engineering were attending these training

Imperial College of Engineering and Research, Wagholi, Pune.
(Approved by AICTE, Delhi & Govt. of Maharashtra, affiliated to Savitribai Phule Pune University)
Gat.No.720, Pune-Nagar Road, Wagholi, Pune, 412207

Accredited with NAAC "A" Grade

Sessions conducted in two weeks and two hours per day. The student's response was excellent and they built their confidence about various software handling and improve the confidence.

5. Description

(a) Introduction, Theme & Significance:

E K ELECTRONICS PRIVATE LIMITED is a private limited Company incorporated on 11/03/2010 and is 7 Years 11 Months 13 Days old. It is classified as Indian Non-Government Company and is registered at RoC-Pune. Its authorized share capital is Rs. 500000 and its paid up capital is Rs. 100000. K Electronics Pvt Ltd Manufacturer of led lamp, electrical copper wire & electrical pvc insulated wire in Pune, Maharashtra.

EK Electronics - Manufacturer of wiring harness, cable type for wiring harness & pvc terminal caps for wiring harness in Pune

B) Activity:

Mr. Patil From the EK Electronics Pvt. Ltd. introduce about product of company and how the flow of production done. It includes all the manufacturing process of wiring harness, prepared for L.G.Electronics and Haier companies.

JSPM's

Imperial College of Engineering and Research, Wagholi, Pune.
(Approved by AICTE, Delhi & Govt. of Maharashtra, affiliated to Savitribai Phule Pune University)
Gat.No.720, Pune-Nagar Road, Wagholi, Pune, 412207

(C) Students & Faculty response:

The entire students & faculty members were taken to the presentation room by the resource person, who conducted presentation about the company and explained about its importance, work culture and manufacturing processes. The resource person provided the information that about wiring Harness and explained about the specifications.

Then students were taken to the production line to see the manufacturing process of wiring Harness. The steps of manufacturing process were explained which included various stages.

The students gained the knowledge that through which manufacturing process wiring harness are prepared.

The response from the EK electronics was appreciable. The program was well placed within the time limits. The industrial visit for Third year students was placed in an organized manner which helped students in many aspects. Students get guidance of industry expert and asking about their queries. They found it useful for their future career.

EVENT REPORT

1	Name of the Event	Industrial Automation Using PLC +SCADA+ IoT
2	Day & Date of the Event	20, 21, 22 and 28, 29, 30 th Sep 2018 (Thu, Fri, Sat and Fri, Sat and Sunday)
3	Time of the Event	9.00 am to 4.00 pm
4	Venue of the Event	Research Lab (B-316), Seminar Hall

5. Description

(a) Introduction

A programmable logic controller (PLC) or programmable controller is an industrial digital computer which has been ruggedized and adapted for the control of manufacturing processes, such as assembly lines, or robotic devices, or any activity that requires high reliability control and ease of programming and process fault diagnosis.

They were first developed in the automobile manufacturing industry to provide flexible, ruggedized and easily programmable controllers to replace hard-wired relays, timers and sequencers. Since then they have been widely adopted as high-reliability automation controllers suitable for harsh environments. A PLC is an example of a "hard" real-time system since output results must be produced in response to input conditions within a limited time, otherwise unintended operation will result

Supervisory control and data acquisition (SCADA) is a control system architecture that uses computers, networked data communications and graphical user interfaces for high-level process supervisory management, but uses other peripheral devices such as programmable logic controller (PLC) and discrete PID controllers to interface with the process plant or machinery. The operator interfaces which enable monitoring and the issuing of process commands, such as controller set point changes, are handled through the SCADA computer system. However, the real-time control logic or controller calculations are performed by networked modules which connect to the field sensors and actuators.

The SCADA concept was developed as a universal means of remote access to a variety of local control modules, which could be from different manufacturers allowing access through standard automation protocols. In practice, large SCADA systems have grown to become very similar to distributed control systems in function, but using

JSPM's

Accredited by NAAC with "A" Grade.
Department of Electronics and Telecommunication Engineering

multiple means of interfacing with the plant. They can control large-scale processes that can include multiple sites, and work over large distances as well as small distance. It is one of the most commonly-used types of industrial control systems, however there are concerns about SCADA systems being vulnerable to cyberwarfare/cyberterrorism attacks.

Theme: -

To bridge the gap between industry and institution.

Expose the students of Electronics and Telecommunication Engineering, to the existing scenario in this electronics and telecommunication industry and Provide them a training of current industry requirement. The training workshop is having NSDC certificate.

Significance: -

The main objective of this WORKSHOP is to make the aspiring engineers acquainted with the conceptual as well as practical knowledge of the Industrial Automation & latest technologies being used to achieve industrial automation. The idea of organizing this workshop is to inculcate the basic fundamentals of automation in the students and provide them with a platform to work on, In the Near Future.

The Most Used Guiding Force Behind an Automated Industrial Plant Is A "Programmable Logic Controller" Generally Known as A PLC. PLCs Along with Certain Other Necessary Ingredients Like Sensors, Motors, Actuators, Valves, Conveyors, Boilers, SCADA Systems, Computers & Many More, Makes A Real Automated Manufacturing Plant.

(b) Conduction, Guest details, Activity:

National Assessment & Accreditation Council

The guests for workshop were from SOFCON INDIA Pvt. Ltd. Pune. Mr. Bhavesh Kumar Singh, Branch Manager and Mr. Kunal Wakhare, Mr. Vishal Sawant and Mrs. Anjali, Technical Team of SOFCON.

The workshop was conducted on 20, 21, 22, 28, 29, 30th September 2018 from 9 to 4 pm every day. The guest provided in depth knowledge about PLC, SCADA, IoT to the student and they took hands on practical session.

(c) Students response & participation:

Around 30 students ~~were~~ participated in this workshop. The students enjoyed workshop very much, they learned basics of PLC, SCADA, IoT and how to program them. At the end students were very much happy about the delivery of the workshop.

3	Time of the Event	10 AM to 11 AM
4	Venue of the Event	Online mode

Sr No	Objective	Expected Outcomes
1	To develop the skill of Civil Core (C2) software	Through event components for Civil Core (C2) software was understood.

- 5 Description:
Inaugural function of "Civil Core (C2) software Club" on 17/07/2019

(a) Introduction, Theme & Significance:

Introduction:

Civil 3D supports workflows for various civil engineering projects, including roads and highways, rail, bridges and tunnels, site development, and storm and sanitary networks.

Theme:

It is always good to learn Civil Core (C2) software, especially since it is widely applicable for civil applications.

Significance:

The main purpose behind organizing this event was to create awareness of Civil Core (C2) software in civil engineering sector.

1	Name of the Event	Revit MEP
2	Day & Date of the Event	14 th Jan 2020
3	Time of the Event	10.45 PM to 12.45PM
4	Venue of the Event	Civil Seminar Hall, A Building , Imperial college of Engineering & Research

Sr No	Objective	Expected Outcomes
1	To leverage Revit MEP to develop Revit MEP design, product simulation, design communication, tooling creation	Through event awareness about software skills for MEP design.
2	To reduce risk and develop better quality MEP systems	Through event understood to reduce risk in MEP system.

- 5 **Description:**
Seminar on Revit MEP on 14th Jan 2020.

(a) Introduction, Theme & Significance:

Introduction:

Revit MEP is a building information modeling (BIM) software created by Autodesk for professionals who work in MEP engineering. MEP stands for mechanical, electrical, and plumbing which are the three engineering disciplines that are addressed by Revit MEP. The software is powerful enough to leverage dynamic information in intelligent models. The software is used to streamline the engineering design process making product design and development more efficient.

Theme:

To learn new software for MEP Design.

Significance:

The main purpose behind organizing this event was to create awareness of new software in MEP design.

MEMORANDUM OF UNDERSTANDING

This Memorandum of Understanding made and entered on 26th of June 2019, between

**Seventh Sense People Development Solutions Pvt Ltd,
Bengaluru.**

AND

**JSPM's Imperial College of Engineering & Research,
Pune**

Whereas

Seventh Sense People Development Solutions Pvt Ltd is engaged in the business of providing Campus Recruitment Training Program along with Placement Assistance – First Party

JSPM's Imperial College of Engineering & Research, Pune is engaged in providing education to the students in the capacity of an educational institution– Second Party

Seventh Sense People Development Solutions Pvt Ltd and JSPM's Imperial College of Engineering & Research, Pune have decided to work together for mutual benefit with respective expertise in their fields, in providing training to the students of the college. Both the parties intended to record the terms and conditions of the Memorandum of Understanding in writing.

Now this Memorandum of Understanding witnessed that in consideration of the mutual covenant contained herein, the parties have agreed as follows:

Period of Memorandum of Understanding:

This Memorandum of Understanding is valid for a period of **60 months** from the date it is signed by authorized representatives from both the parties.

Wed, Jul 27, 2022 at 11:21 AM

Dear All TPO,

Greetings of the day from Zensar & RPG Foundation !!

For this selection between **2nd Aug 2022 till 6th Aug 2022** we have available slots to conduct the examination. Please choose one date and time so we can schedule the test. Only serious candidates from your colleges should join in as we have limited seats. *(If JSPM choose one date I think that would be easier)*

Please select candidates for CS/IT/ENTC/DSAI/MCA as well.

Eligibility: BE/BTech (CS/IT/ENTC/AI&DS) Adhere to this only. Student starting there 3rd Year/5th Semester of Engineering. MCA (Few slots are available)

Students will have to take up aptitude and English test. Also they need to upload a link of their video on English Questionnaire. Students will need to fill in the registration form as well with all details mentioned before the test.

English questionnaire video to be prepared and shared please find the attached document with this email. Students should be ready with video links google drive or youtube link.

Due to high demand and volume for this program I truly appreciate your patience and kind cooperation from TPOs and Faculties.

Please create whatsapp group naming Zensar ESD College Name make (yogesh & Guru Admin) phone numbers are mentioned here. Yogesh (9552003857) Gururaja (9008009900)

Students can take test from college or home should not be a problem.

Please read all the **Instructions** and the **PDF Document** given above.

Assessment URL: <https://zensar.esd.hiringtests.in>

The link is active. Candidates can register and complete their profiles.

System Check URL: <https://zensar.esd.hiringtests.in/Tests/test/deviceCheck>

Please ask the candidates to take this System Check to check for any issues before taking the assessment.

Sub. : About Entrepreneurship Program/Camp.

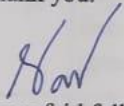

Respected Sir,

"Maharashtra Centre for Entrepreneurship Development (MCED)" is nodal agency of Government of Maharashtra for imparting Entrepreneurship Development Training. The main objective of our organization is to spread entrepreneurship globally.

In order to create awareness about entrepreneurship among the college students we organize 3 days Entrepreneurship Awareness Program at college level. This camp will be helpful to students in their future life. I am enclosing herewith detail proposal for organizing EAC at your college.

So please convey us if you are interested in organizing such camp in your college. Our Email id is pune2mced@gmail.com

Thank you.

Yours faithfully

Mr. Srijeet R Nair
Project Officer
MCED, Pune.

2. GTT Foundation is engaged in the field of education & employability domain that provides training to the students as part of their CSR activity
3. Jspm Imperial college of Engineering and Research (Department of MBA) is willing

GTT Foundation
10, Talera Park, Kalyani Nagar, Pune-411014

JSPM's
Imperial College of Engineering and Research, Wagholi, Pune.
(Approved by AICTE, Delhi & Govt. of Maharashtra, affiliated to University of Pune)
Gat.No.720, Pune-Nagar road, Wagholi, Pune, 412207
Accredited with NAAC 'A' Grade
Training and Placement Cell

Ref No. JSPM/ICOER/T&P/Admin/20-21/

Date: 12/09/2021

EVENT REPORT

1	Name of the Event	GTT Training From 26 th August 2021 to 11 th Sept. 2021
2	Day & Date of the Event	26 th August 2021 to 11 th Sept. 2021
3	Time of the Event	11.30 a.m. to 2.30 p.m.
4	Venue of the Event	Online Sessions

Sr. No	Objective	Outcomes
1	To work in collaboration and jointly perform activities in line with GTT. To Make students to develop the technical skills and create professional identity.	Activities performed in collaboration and in line with GTT helped students to enhance the technical skills and aptitude skills.
2	To consciously contribute to bridge the gap, which will primarily help the students in development.	Students come to know about Industry requirements and demands.

OF ENGINEERING & RESEARCH (MBA), Pune**

A. PURPOSE OF AGREEMENT

There's a huge gap between the kind of skills and the kind of competencies that are required by industry and those being supplied by the institutions of higher education. As a responsible member of the higher education, ICOER and PMA realize their responsibility to consciously contribute to bridge the gap, which primarily helps Industries and Institute as well as society in general.

ICOER and PMA recognize that they share common interests and are desirous to establish, a collaborative arrangement towards creating requisite talent by strengthening Business Management education (with a specific focus on Business
