### **Aarogya Setu**

On 2nd April 2020, India launched Aarogya Setu mobile App for helping augment the efforts of limiting the spread of COVID19, with an objective of enabling Bluetooth based contact tracing, mapping of likely hotspots and dissemination of relevant information about COVID19. The App has over 114 million users as on 26th May, which is more than any other Contact Tracing App in the world. The App is available in 12 languages and on android, iOS and KaiOS platforms. Citizens across the country are using Aarogya Setu to protect themselves, their loved ones and the nation. Many youngsters also call Setu as their Bodyguard. The key pillars of Aarogya Setu have been transparency, privacy and security and in line with India's policy on Open Source Software, the source code of Aarogya Setu has now been made open source. The source code for the Android version of the application is available for review and collaboration at [https://github.com/nic-delhi/AarogyaSetu\\_Android.git](https://github.com/nic-delhi/AarogyaSetu_Android.git). The iOS version of the application will be released as open source within the next two weeks and the server code will be released subsequently. Almost 98% of Aarogya Setu Users are on Android platform.

The Government of India, by opening the product design and code, has also demonstrated its strong commitment to contributing to the global good. India is keen to share learnings from our approach to technology to fight COVID-19 and make the benefits of the solution available to the rest of the world and any government can use it for fighting the pandemic. Together we can, and we continue supporting the doctors and frontline health work in helping fight this pandemic.

### Integrated Govt. Online training portal for COVID 19

India is fighting against covid-19 Pandemic and India's first line of workers is already engaged in COVID relief and doing commendable job. However, a larger force will be needed to replace the first line and to tackle the exponential or geometric increase in positive COVID cases in the subsequent stages of the pandemic.

Accordingly, to take care of the training needs of the frontline workers, the Government of India has launched a training module for management of COVID-19 named 'Integrated Govt. Online training' (iGOT) portal on Ministry of HRD's DIKSHA platform for the capacity building of frontline workers to handle the pandemic efficiently.

Courses on iGOT have been launched for Doctors, Nurses, Paramedics, Hygiene Workers, Technicians, Auxiliary Nursing Midwives (ANMs), State Government Officers, Civil Defence Officers, Various Police Organisations, National Cadet Corps (NCC), Nehru Yuva Kendra Sangathan (NYKS), **National Service Scheme**, Indian Red Cross Society, Bharat Scouts and Guides and other volunteers.

The training contents of the course include Basics of COVID, clinical management, ICU care management, infection prevention and care, usage of PPE, quarantine and isolation, training for NCC cadets, management of COVID 19 cases, laboratory sample collection and testing, psychological care of patients, paediatric care in COVID, pregnancy during COVID, etc. The new learning content is being regularly added to the modules.

The platform provides the training module on flexitime and on site basis so that the COVID response can be delivered at scale for the workforce needed to tackle the pandemic.

Our NSS volunteers also take part in it. So many volunteers register Online training' (iGOT) portal on Ministry of HRD's DIKSHA platform for the capacity building of frontline workers to handle the pandemic efficiently.

and try to adapt according to the situation.

These hard times are teaching us the value of everything that comes, like fruits, vegetables, and groceries in our lives. They have become so valuable that nowadays they are not readily available. We are learning to manage ourselves with limited resources. We have started to respect our farmers, and the vendors who are bringing these students to our doorsteps. We have realized that we should never waste food because money doesn't come every day. We have a single meal during this lockdown period. We have also thought of all beyond just food as now we know that delicious food can be cooked at home too. We are more interested about spiritual things of ourselves.

The lockdown has also made us appreciate our parents, who always meet our needs and try to fulfill our reasonable demands and never complain. Spending more time with them gives us opportunity to understand them and to learn about quality time as well as not about only studies etc. and quote it as about sharing of knowledge with each other during any phase of life.

and try to adapt according to the situation.

These hard times are teaching us the value of everything that comes, like fruits, vegetables, and groceries in our lives. They have become so valuable that nowadays they are not readily available. We are learning to manage ourselves with limited resources. We have started to respect our farmers, and the vendors who are bringing these students to our doorsteps. We have realized that we should never waste food because money doesn't come every day. We have a single meal during this lockdown period. We have also thought of all beyond just food as now we know that delicious food can be cooked at home too. We are more interested about spiritual things of ourselves.

The lockdown has also made us appreciate our parents, who always meet our needs and try to fulfill our reasonable demands and never complain. Spending more time with them gives us opportunity to understand them and to learn about quality time as well as not about only studies etc. and quote it as about sharing of knowledge with each other during any phase of life.

life thinking and working process are directly or indirectly affecting us. Things that depend on them, like the value of money, a high level responsibility which takes to them. The people who study online to get their education, they are not able to achieve it easily. Therefore, it is not logical for them to attend to online classes. Languages like English can't be taught through the internet and a lot of time is wasted just to attend the online class.

Some high school students cannot attend the online classes because of the lack of internet connection. At the same time, some students believe that they are not prepared to attend a class in the presence of all these distractions and social media.

Online classes are not only necessary for the students and at the same time it is also a step towards the future. We should not have any doubt about it.

social media and provide a good environment for education. Online classes are only beneficial for people who are having a good internet connection and a good device. For people who have a slow internet and a low quality device, it is not effective as a medium of education learning.

It is possible to learn many things from books, while we learn through online classes, we are not able to read in the same way. Some students who are not able to read do not spend their time in the books. The teacher who teaches the lesson through a video and a power point presentation that contains information with few slides as well as the teacher's voice, it is not as effective as the traditional way of teaching.

Online classes may be beneficial to some students, but it is not a substitute for the traditional way of teaching. The teacher's role in the classroom is very important. It is not only about the content of the lesson, but also about the way it is taught. All students should have a common goal to understand the concept taught.

Sr No	Objective	Expected Outcomes
1	To aware the audience regarding HIV AIDS.	Increase the participation of students for social activities & to make the habit to work in groups.
2	To aware the students regarding work culture & activity of NSS	Awareness among audience about symptoms of AIDS& precaution to be taken to avoid the same

### 5 Description

#### (a) Introduction, Theme & Significance

- a) Introduction:** This year, 50 new students joined the National Service Scheme. Therefore, the program was organized to help them understand the objectives of the National Service Scheme. In addition, awareness about HIV and AIDS was raised on World Youth Day.
- b) Theme:** HIV/AIDS Awareness program help people become aware of the levels of care and treatment, whether they are living with HIV or caring for someone with this disease.
- c) Significance:** When we support people living with HIV, we make it easier for them to live healthy lives.

#### (b) Conduction, Guest details, Activity

- a) Conduction:** The program was inaugurated by the Vice-Principal. After this, the students who completed 3 years were given a certificate by the hands of the guests. After that, the 2 students tried to remove the misunderstanding in the society about HIV AIDS by giving speech. Finally, 20 students from the National Service Scheme performed a drama about HIV AIDS.
- b) Guest Details:** Vice principal Dr A. W. Dhawale and All HODs from various departments were present for the event.
